## Container Standards

External dimensions (ISO 668) (see table) and container corner fittings (ISO 1161) of all containers are uniformly defined.

| Standard <br> Measurements <br> ISO 668 | Length |  | Width | Height |  |
| :---: | :---: | :---: | :---: | :---: | :---: |
| External Dims | $20^{\prime}$ | $40^{\prime}$ | $8^{\prime}$ | $8^{\prime}$ | $8^{\prime} 6 \prime \prime$ |
| Standard | $6,058 \mathrm{~mm}$ | $12,192 \mathrm{~mm}$ | $2,438 \mathrm{~mm}$ | $2,438 \mathrm{~mm}$ | $2,591 \mathrm{~mm}$ |
| Internal Dims | $19^{\prime} 3^{\prime \prime}$ | $39^{\prime} 43 / 8^{\prime \prime}$ | $7^{\prime} 73 / 4^{\prime \prime}$ | $77^{\prime} 21 / 2^{\prime \prime}$ | $7^{\prime} 81 / 2^{\prime \prime}$ |
| Standard | $5,867 \mathrm{~mm}$ | $11,998 \mathrm{~mm}$ | $2,330 \mathrm{~mm}$ | $2,197 \mathrm{~mm}$ | $2,350 \mathrm{~mm}$ |
| Door Opening |  |  | $76^{\prime \prime}$ | $7^{\prime}$ | $7^{\prime} 5^{\prime \prime}$ |
| Standard |  |  | $2,286 \mathrm{~mm}$ | $2,134 \mathrm{~mm}$ | $2,261 \mathrm{~mm}$ |

Minimum values for internal dimensions (see table); load capacity and navigability with forklifts are standardized.

According to ISO 668, container can be loaded with the following gross load weight:

## 20' containers

$20,320 \mathrm{~kg}$ (44 800 lbs )
(applies to some series only)
$24,000 \mathrm{~kg}$ ( 52910 lbs ) (accord. to ISO 668, internal dimensions to which nearly all 20' container comply with)
$30,480 \mathrm{~kg}$ ( 67200 lbs ) (applies to series of new (exemption: 40' flats and 20' containers:
currently not yet ISO standard)

## 40' Container:

$30,480 \mathrm{~kg}(67200 \mathrm{lbs})$
The floor of a container may be used by a forklift with an axle weight of up to $5,460 \mathrm{~kg}$ ( 12040 lbs ) and a minimum wheel seating face of $142 \mathrm{~cm}^{2}$ (22 sq. in.) per wheel (ISO $1496 / 1$ ).

## Minimum requirements for ConRail containers

- The overall measurements and corner fittings of all containers are standardized.
- All containers are above the minimum standard requirements of internal dimensions
- All exposed wooden parts are impregnated to match Australian conditions (exemption: 40' flats and platforms).
- The measurements may differ from the figures shown in the tables below:

| Tolerances | Length | Width | High |
| :---: | :---: | :---: | :---: |
| Maximum | $3 / 8^{\prime \prime}$ | $3 / 8^{\prime \prime}$ | $3 / 8^{\prime \prime}$ |
| Deviation from <br> Measures | 10 mm | 10 mm | 10 mm |
